Project work

Topic : Investigate the geometrical shapes and patterns present in the architecture of pilgrimage sites in India.

1. Choose a pilgrimage site in India (e.g. Golden Temple, Meenakshi Temple, Akshardham Temple, Somnath Temple, Konark Sun Temple, and Jagannath puri Temple etc.)
2. Identify different geometrical shapes such as squares, rectangles, circles, triangles, polygons, arches, domes, etc. by highlighting each geometric shape and provide brief explanations of its significance.
3. Paste the picture on A4 size sheets of light purple colour and submit your project and analysis, highlighting the geometrical shapes and patterns found in the architecture of the pilgrimage site.

SCIENCE

Conduct a biodiversity survey around any pilgrimage site (Vaishno Devi, Catholic church in Goa, Rishikesh , Tirupati mandir etc). Write different plant and animal species, their habitats and any conservation measures implemented.

SOCIAL SCIENCE

PILGRIMAGE RESEARCH PROJECT: Research on different pilgrimage sites highlighting their historical background, religious significance, cultural rituals and impact on local communities.

Choose any one pilgrimage site from the following:

PILGRIMAGE SITES: Mecca, Jerusalem, Varanasi, Santiago de Compostela

COMPUTER

Make a list of 10 most popular pilgrimage spots of India using Excel. Also note the number of visitors at the respective pilgrimage spot in year 2023. Lastly using Excel function find out the most and least visited spot.

Note: Take the Print out of the spreadsheet and paste in light pink colour sheet.
